

Avellino COVID-19 Corporate Testing Solution

A comprehensive solution for returning to work

As companies plan to return to work, testing is crucial in order to keep employees and customers safe. Many employers agree that testing and screening can help reduce disease transmissions and employee fears.

The solution is turnkey: administration, sourcing, testing, results communication, billing, reimbursement, and secure digital storage for employee results.

Benefits of the Avellino CoV2 Corporate Testing Solution:

- Minimal cost and responsibility for the employer
- No cost to the employee
- Non-invasive, highly accurate with quick results in 24 - 48 hours
- HIPAA compliant
- Employee can digitally store, access, and share test results with employer
- Allows repeat testing per employee based on employer needs (i.e. weekly, biweekly, etc)

Turnkey Solution for Employers

Employer

- Employer establishes testing policy including the number of tests needed, schedule, and frequency
- Employer identifies certified test administration partner

Test Administrator

- Certified test administrator and/or ordering professional collects patient sample
- Responsible for administering and shipping test to Avellino
- Responsible for delivering results to patient/employee

Medical Billing

- Avellino or test administrator will be responsible for medical billing
- No insurance billing necessary by the employer

Digital Data Storage

- Patient is able to securely store and track test results in LifeSite's encrypted web and mobile application
- Patient owns his/her information and can quickly share test results with their employers
- No data or privacy liability for the employer
